PROFESSIONAL SUMMARY

Driven Master's student in Artificial Intelligence and Full-Stack Web Developer with hands-on experience building scalable web applications, desktop software, and intelligent systems. Skilled in Node.js, Express.js, Python, Java, MySQL, and modern front-end frameworks like Tailwind CSS. Adept at software architecture (UML) and combining AI models with functional applications.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), Java, C, C++

Web & Backend Development: Node.js, Express.js, HTML5, PHP, Tailwind CSS, REST APIs

Databases: MySQL, SQLite

AI & Data Science: NumPy, Matplotlib, SciPy

Software Engineering & Tools: Object-Oriented Programming (OOP), UML Modeling, Git, GitHub, System Architecture

EDUCATION

Master of Science (M.Sc.) in Artificial Intelligence | University of Ibn Khaldoun – Tiaret, Algeria | Expected Graduation: 2026

- Relevant Coursework: Machine Learning, Natural Language Processing, Deep Learning, Software Architecture, Advanced Algorithms.

Bachelor of Science (B.Sc.) in Computer Science | University of Ibn Khaldoun – Tiaret, Algeria

PROJECTS

APEX — Graduation / Master's Project

- Developed an AI-integrated system solving complex computational and automation tasks.
- Designed the software backend using Node.js / Python and handled database modeling.
- Applied UML for structural and behavioral system design before implementation.

BOOK-ANES — Library & Book Management Desktop Application

Tech Stack: Java, Object-Oriented Programming (OOP), MySQL / SQLite

- Designed and developed a modular Java application to streamline book inventory, reader records, and borrowing workflows.
- Applied OOP design patterns and optimized database queries for rapid title search and data persistence.

Quran Memorization Society Web Platform

Tech Stack: HTML5, CSS/Tailwind, JavaScript, PHP/Node.js, MySQL

- Built a full-stack platform to manage student records, session scheduling, and memorization progress tracking.
- Designed responsive UI/UX and structured relational database tables using MySQL.

Personal Developer Portfolio

Tech Stack: HTML5, Tailwind CSS, JavaScript, Vercel

- Designed and deployed a dynamic portfolio website to showcase project repos, achievements, and technical expertise.
